WHY DO  
WE NEED TO  
RETHINK  
BUDGETING?

**“the challenges facing today’s  
leaders require  
something different  
from our budget process”**

## SPENDING SMARTER: PRIORITY-BASED BUDGETING IN PITTSBURGH

The answer to funding climate work might not be spending more but spending smarter. **Cities can find money for climate action within their current budget through a process called priority-based budgeting, or PBB.**

When climate initiatives were dismissed as “unicorn projects,” Pittsburgh’s former Chief Resilience Officer Grant Ervin introduced a process with potential to create a dedicated climate budget without raising a cent in taxes. The city partnered with PBB specialists at ResourceX and put the existing line-item budget under the microscope. Comparing actual spending against the impact of city services enabled Pittsburgh to better align its budget to its priorities.

The result: Pittsburgh identified over \$40 million in potential savings and new revenue that could be reallocated to meet the city’s climate goals, and established a more effective and strategic budgeting process for years to come. Because of this success, Pittsburgh is seeking further opportunities to expand the PBB tool across other goals, such as equity.

**As the impacts of climate change reach disastrous levels, communities are looking for promising and bold solutions – inevitably raising the question:**

**Who’s footing the bill?**

The answer to funding climate work might not be spending more but spending smarter. **Cities can find money for climate action within their current budget through a process called priority-based budgeting, or PBB.**

The result: Pittsburgh identified over \$40 million in potential savings and new revenue that could be reallocated to meet the city's climate goals, and established a more effective and strategic budgeting process for years to come. Because of this success, Pittsburgh is seeking further opportunities to expand the PBB tool across other goals, such as equity.

# Who's footing the bill?

**Goal:** find resources to fund climate and equity initiatives

**Path to Action:** 1.) define programs and costs, 2.) program insights for reallocation

Beginning with our commitment to build a more resilient city & through strategic partnerships over the years, Pittsburgh was able to identify \$41M in spending that has been repurposed to meet our sustainability goals. A new model of Priority Based Budgeting for cities.

# How one city is looking to future-proof its budgeting process

Fort Worth Lab, the city's effort to transform its budgeting process, is located in the city hall building. MICHAEL BARERA VIA WIKIPEDIA

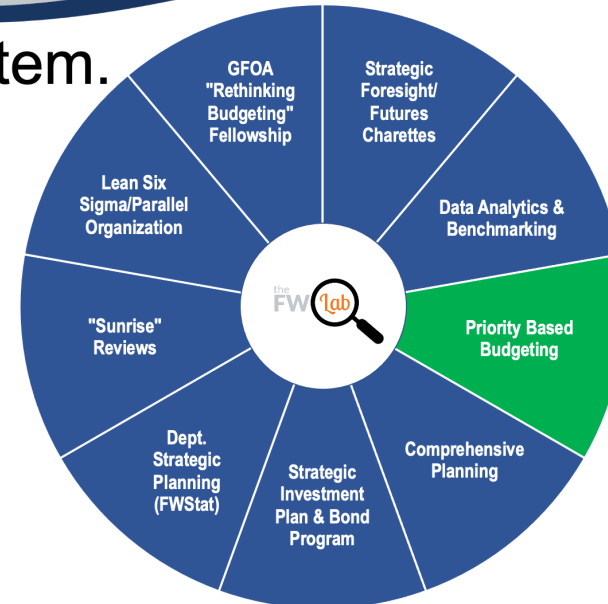

AUGUST 22, 2023

Nationwide, cities are attempting to improve their budgeting. But none appear to be taking more dramatic steps than fast-growing Fort Worth, Texas.

## The System.

### Purpose:

- Move from line-item to **program approach**.
- Facilitate enhanced **prioritization & allocation** of limited resources.
- Better **alignment** to Council Priorities.

### Program Cost Allocation

# City Manager And Fort Worth Lab Celebrated As City Heroes

CITY MANAGER AND FORT WORTH LAB CELEBRATED AS CITY HEROES

Published on August 12, 2023

City Manager David Cooke and the newly formed Fort Worth Lab are hailed as "remarkable heroes" in a CitiesSpeak blog post published recently by the National League of Cities.

**About the post:** Under the headline **City Heroes: Celebrating Data and Analytics Innovators**, the blog post celebrates unsung heroes who are leveraging the power of data and analytics to drive positive change and improve the lives of residents.

**Here is the text of the blog post:**

City Manager David Cooke & Team, working in the City of Fort Worth, Texas, are playing a lead role in building the best budgeting and researching department in the nation. The vision blends the first phases of priority-based budgeting using software provider **ResourceX**, data analytics and organizational and departmental strategic plans. The new department is called FWLab.

Going forward, Fort Worth's team in data analytics will allow the City to optimize resource allocation, identify areas for improvement, and measure the impact of its budgeting decisions. In addition, establishing a data governance model and roll out of data analytics tools, will transform what was once-siloed departments into a connected system that enables data-driven decision-making and improves operational efficiency.

By leveraging data-driven insights through routine convenings, and narrating stories around data, Fort Worth continues to enhance its budgeting practices; and the teams' efforts have focused on aligning budget allocations with community needs and desired outcomes. By analyzing data and understanding the impact of various programs and initiatives, the City of Fort Worth can make

# THE CITY OF BENICIA CALIFORNIA

**Programs That Serve You – Priority Based Budgeting.** The City Council and community members identified six (6) “Results”, also known as strategic goals, which the City of Benicia aspires to achieve with our programs and services. They are shown below. Click across the tabs to read about each goal and their definitions.

- GOOD GOVERNANCE
- PROTECT & ENHANCE THE ENVIRONMENT
- PROTECT COMMUNITY HEALTH & SAFETY
- PRESERVE & ENHANCE INFRASTRUCTURE
- STRENGTHEN ECONOMIC & FISCAL CONDITIONS
- MAINTAIN & ENHANCE A HIGH QUALITY OF LIFE

**45 Programs**

Click for more info

- Reduce or mitigate factors such as greenhouse gas emissions and energy consumption, that negatively impact the environmental quality of water, land and air
- Provide for safe and reliable water supply and the conservation of all resources
- Promote sustainable development (business, housing, transportation and noise) that align with protecting and preserving natural resources
- Plan for environmental sustainability

### Highlighted Programs

## Planning for Natural Hazards

Description: The Community Development Department assists the City in anticipating and planning for natural hazards. In addition to the General Plan (1999), the City has recently adopted such things as a Local Hazard Mitigation Plan (LHMP) and prepared a Climate Vulnerability Study and Adaptation Plan. The LHMP (last adopted in 2017) is required pursuant to the Federal Emergency Management Agency (FEMA) and must be updated every five years per Federal law. The Community Development Department provides support in LHMP planning to the Fire Department, who is lead department on implementation and reporting.

# What are Pittsburgh's budget priorities

The budget is one of the most powerful tools for influencing change. If you want to know what a city's priorities are, look at how it plans to spend its money.

The City of Pittsburgh is committed to spending valuable tax-payer funds in the most strategic and fiscally responsible way. The City has developed priorities to strategically align resources (money) towards outcomes that provide the greatest impact for residents and the community. These priorities include:

- **Safe Neighborhoods** - Infrastructure, Housing, Environment and Lifelong Learning
- **Welcoming Communities** - Resident Empowerment, Cultural Celebration and Social Fulfillment
- **Thriving People** - Economic Mobility, Physical Mobility, Critical Community and Equity

# STRATEGIC PLAN FOR THE CITY OF YUMA, ARIZONA 2021-2025

UPDATE APPROVED BY CITY COUNCIL  
ON APRIL 21, 2021

INITIAL STRATEGIC PLAN ADOPTED BY CITY COUNCIL ON  
DECEMBER 16, 2020

## CITY OF YUMA'S VISION AND STRATEGIC OUTCOMES

### VISION

Yuma is a thriving, safe and prosperous community with opportunities powered by innovation, partnerships, collaboration and robust education – a unique place that all generations are proud to share.

### STRATEGIC OUTCOMES

#### SAFE & PROSPEROUS

Yuma is a safe and prosperous city that supports thriving businesses, access to education, and multi-generational opportunities.

#### ACTIVE & APPEALING

Yuma plans and leverages its natural resources, public spaces and cultural amenities to support an active and appealing community.

#### CONNECTED & ENGAGED

Yuma is connected and engaged through active communication, forward-looking partnerships, and ongoing public involvement.

#### UNIQUE & CREATIVE

Yuma is a unique and creative community, built on our shared history, sense of place, and civic pride.

#### RESPECTED & RESPONSIBLE

Yuma is a trusted steward of City resources; relied upon to provide premier services and regional leadership.

## Regional Plan Update and Management

### Program Description

An update to the Regional Plan is required every 10 ten years which must be sent to the voters for ratification. The Regional Plan is the General Plan for the City of Flagstaff. The General Plan is a comprehensive long-range plan for the development of the City and includes statement of community goals and policies, maps, concept plans, and strategies. It covers a wide variety of topics including housing, business, recreation, open space, natural resources, and public facilities. Once a plan is approved annual reports are prepared on the statistical data that supports the Regional Plan. Prepare, process and coordinate amendments to the Regional Plan.

### Program Budget

	Total Cost	Requested Amount	Proposed Total Cost
Personnel	\$98,274	\$0	\$98,274
NonPersonnel	\$13,806	\$1,800	\$15,606
Revenue	\$0	\$0	\$0
<b>Total</b>	<b>\$112,080</b>	<b>\$1,800</b>	<b>\$113,880</b>

### Budget Request Description

Additional Printing Costs for the Regional Plan Update

### Box Choices

How does this request impact the program service level?:  
Maintains service level

Is this request Recurring or One-time? (select one):  
One-time

Is this a new funding request or a base budget reallocation request?: New Funding Request

### Priority Based Budgeting Analysis

Cost Allocations

Non Personnel Cost - \$13,806  
Personnel Cost - \$98,274

Quartile Alignment

BPA Section

MANDATED to PROVIDE PROGRAM - Federal/state mandate  
RELIANCE on CITY to PROVIDE PROGRAM - City is sole provider of service (including contracting out services)  
CHANGE in DEMAND for the PROGRAM - Increasing Demand  
CAPACITY to SERVE - The program has the capacity to serve more than 50% of the intended population  
COST RECOVERY of PROGRAM - 1% - 50% cost recovery

## Community Development

summary of programs and their total requested amount and potential new total

Program	Total Cost	Requested Amount	Proposed Total Cost
CD Personnel	\$23,591	\$4,000	\$27,591

# 2022 Impact Report

## Our Next Frontier: Machine Learning, Data, and Predictive Analytics

**Priority-based budgeting provides a repeatable path to identify the link between programs and priorities.**

Since its [first application in 2008](#), more than 300 local governments have implemented the process of inventorying programs and evaluating the influence of those programs on priorities, such as those identified in the NLC report.

Today's PBB practitioners have applied resource nimbleness to reallocate millions to climate action plans ([just like Pittsburgh, PA](#)) and transform the budget process to build more equitable communities (like the [City Budgeting for Equity and Recovery](#) initiative).

The fact that more than 300 local government practitioners have implemented PBB is wonderful. However, with more than 90,000 local government entities in the US alone, PBB needs to be more accessible. And with new technological breakthroughs, we are pleased to announce our path forward for PBB.

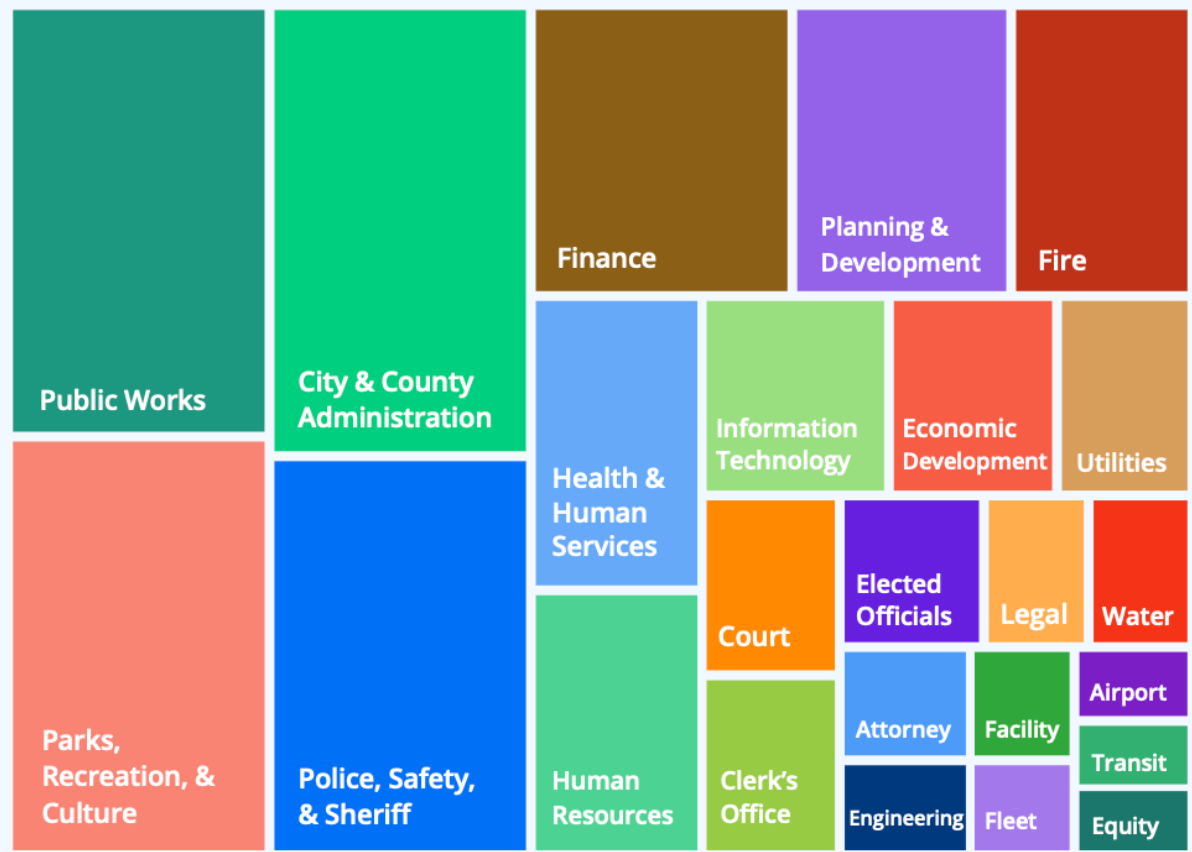

This year, we tested our first predicted program data sets with the City of Albuquerque, New Mexico. Several departments implemented the PBB methodology flawlessly, but one of the city's major public-safety-oriented departments was short-staffed—a challenge that many of our organizations face. But with the power of machine learning, the city was able to experience fully scored programs and predicted program costs, reducing their work to simply picking an option from the ResourceX program inventory builder and loading their strategic plan.

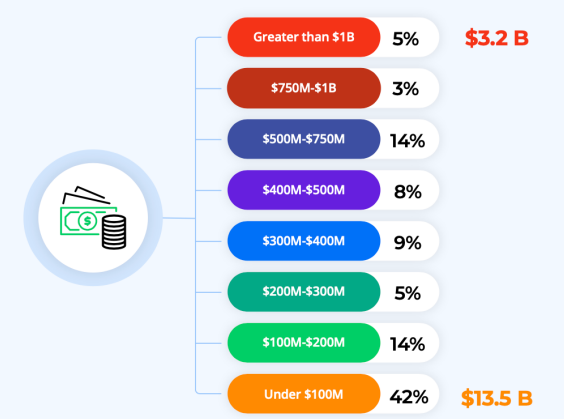

**Priority-based budgeting provides a repeatable path to identify the link between programs and priorities.**

## Number of Programs by Department

## Budgets of All Sizes Benefit from Priority-Based Budgeting

## Our Community Consists of Organizations of All Sizes

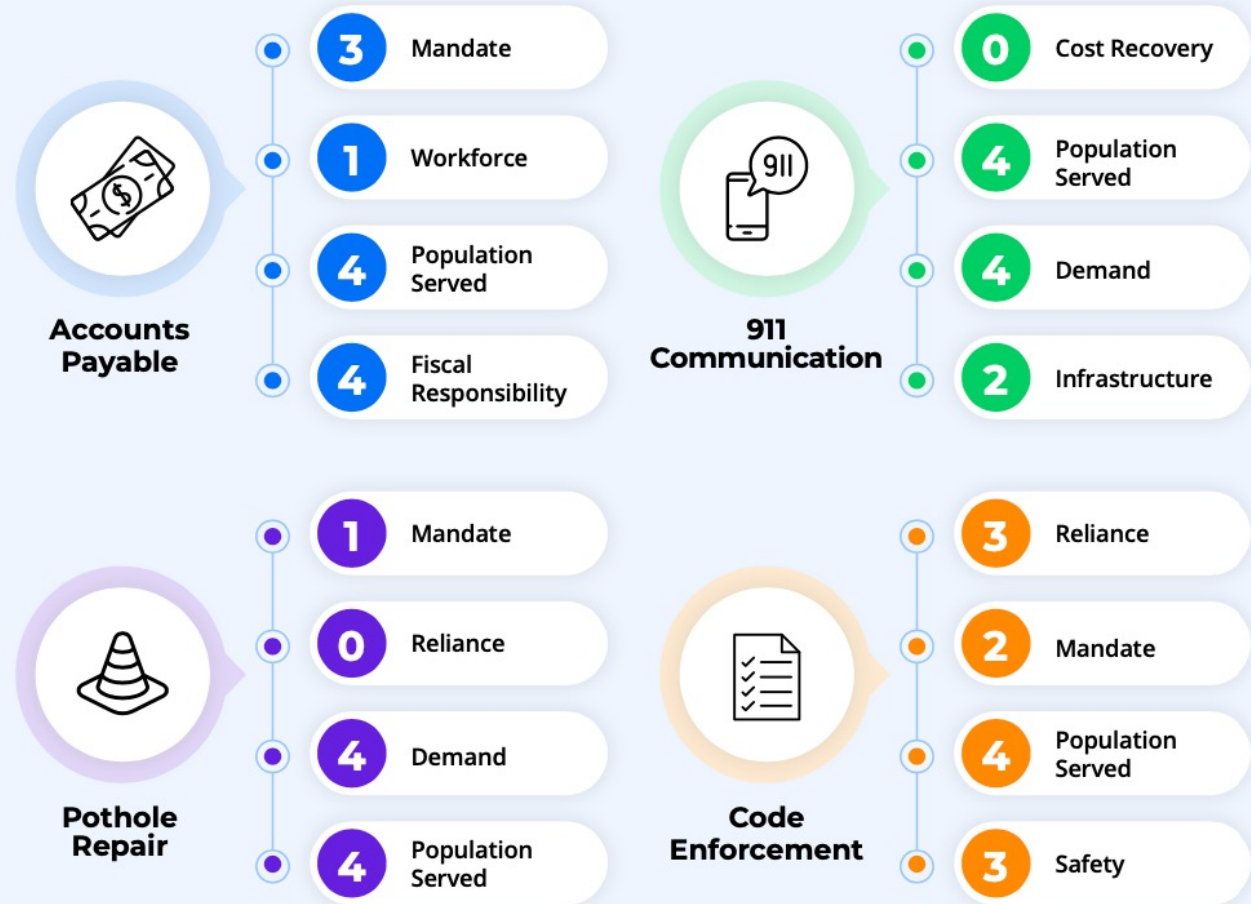

# Let Data Lead the Way

Priority-based budgeting solves budgeting challenges and improves local governments' chances for success in tackling massive societal challenges. With more than a decade of experience in program- and priority-based budgeting, ResourceX provides invaluable experience and data to support organizations in their data creation and application.

## Analysis by Population Size

Population Size	% of Client Within Population Ranges	Budget Size	Percentage of Programs Identified as Community	Percentage of Programs Identified as Governance	Average Total Programs in Inventory
Under 25K	18%	\$34,859,865.00	66%	34%	276
25K-50K	9%	\$68,701,000.00	64%	36%	344
50K-75K	11%	\$91,501,285.71	74%	26%	343
75K-100K	14%	\$272,078,111.11	62%	38%	604
100K-250K	26%	\$292,295,941.18	65%	35%	601
250K-500K	12%	\$597,251,930.00	64%	36%	446
>500K	8%	\$1,823,472,600.00	64%	36%	329

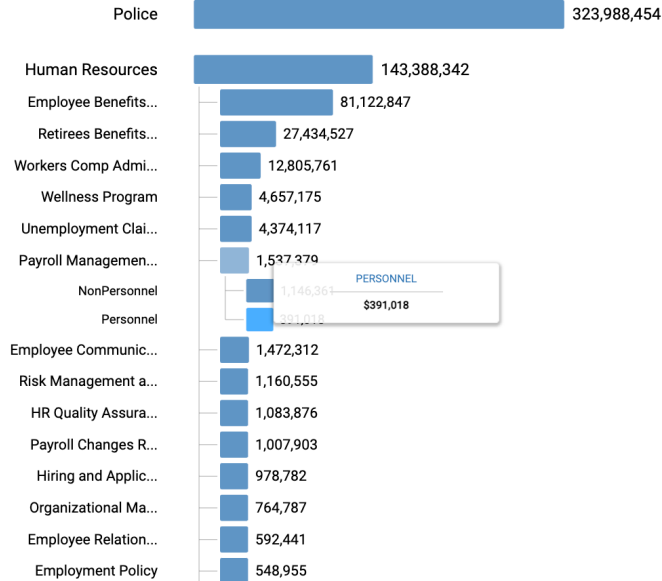

ResourceX has over 10 years of program scoring data. Through machine learning we can now provide a starting inventory with predictive scoring to support an accelerated implementation.

# PBB Blueprint

To Fund the Future

## We have new needs...

... to launch new programs to tackle emerging challenges.  
... to enhance current programs that need additional resources.

## We have no new needs...

- Maintain, preserve current services.
- Or, seek to lower rates or refund tax-payers

Free Up &  
Re-Allocate  
Resources

Sourcing

Efficiencies

Service  
Levels

- Can we leverage partners, or source services with public/private providers, in order to free up our resources?
- Focus on the "irreducible core"
- Can we apply technology to automate or free up human resources?
- Can we augment service delivery with volunteers?
- Can we apply technology to automate or free up human resources?
- Can we augment service delivery with volunteers?

Generate  
New  
Revenue

Fees,  
Charges

Grant  
Funding

Taxes,  
Rates

- Do our fees cover the costs of providing the service?
- Can we in-source, or provide any services regionally for a fee?
- Are we reporting the true cost of services to granting agency?
- Can we recoup additional funding, or attain new grant opportunities?
- Last resort
- Do we have no options left besides raising additional revenue from tax and rate payers?

## Line-item Budgeting

- Good for informing broad decisions that impact cost types (personnel, capital, training, etc)
- Especially useful for decisions of non-personnel nature (defer capital, suspend travel, reduce fuel and supplies)
- Lacks connection to impacts on services, service-levels, and outcomes

## Priority Based Budgeting

- Imperative data to answer:
  - What programs need more resources?
  - What programs can we do less of?
  - What programs can we change how we deliver?
  - Where can we partner?
- Programs are a vehicle for analyzing, communicating change, and a platform for insight and action

CONNECT The logo for 'CONNECT 24' features the word 'CONNECT' in a teal, sans-serif font. To its right is a stylized '24' where the '2' and '4' are also in teal. The '2' is positioned above the '4'. A dashed teal line forms a semi-circle around the top and right sides of the '24', with five colored dots (yellow, orange, pink, red, and teal) placed along the curve.
